

PL310010

DX850 label dispenser automatically peels and presents self-adhesive labels one at a time. It replaces manual label peeling, making your production lines faster and more efficient. The built-in precision micro-switch detects when a label has been removed. Then, the next label is quickly and automatically fed forward, ready to remove. A built-in LED display counts up or down, indicating how many labels you've applied or how many you have left. Ideal for transparent self-adhesive labels.

DX850 Label Dispenser Specifications

Supply roll diameter:	Up to 8" (203mm)
Media liner width:	1.00" to 8.38" (25.4mm to 213.0mm)
Label height/length:	0.75" to 24.00" (19.1mm to 609.6mm)
Supply roll core:	2" to 3" (51.8mm to 76.2mm)
Label width:	0.75" to 8.25" (19.1mm to 209.6mm)
