

GLOSSY ADHESIVE PAPER LABELS

Technical data sheet

FACE MATERIAL:

Description: Special coated gloss finished paper.
Use: Multicolour inkjet printing, high resolution

TECHNICAL DATA	Grammage	Caliper
	87 g/ M2	104 microns

ADHESIVE:

Description: Acrylic waterbone ,universal permanent adhesive for A4 applications
Performances Very good heat resistance, which enables troublefree performance in different printers. Good adhesion to corrugates board and non polar substrates also at low temperatures.
Shelf life: From the date of manufacture 4 years at + 20 C° and RH 50%

TECHNICAL DATA	Min Tack	Application Temperature (min)	Service Temperature (min)	Service Temperature (max)
	N- FTM 9	° C	° C	° C
	9 N	5	- 20	+ 100

BACKING PAPER:

Description: White woodfree kraft backing paper
Application: Information labelling, where good lay-flat properties are required

TECHNICAL DATA	Substance	Caliper
	g/m2	micron
	66	68

Our recommendations are based on our experience and up-to-date knowledge. As the products are used outside our control, we cannot take the responsibility for any damage which could be caused when using the product. This technical information sheet replaces all ealier ones.
